Grandeur of the Wilderness

OUR BIG STORY

WOODS OF ceramic is a great evolution in ceramic floorings that evoke wood, fusing warmth and naturalness. In this catalogue you will find a wide variety of woods, shades and finishes.

The investment in R&D allows us to be the latest not only in the production process, we also have the technology to decorate our pieces providing them with a better finish and a more realistic effect. A careful selection of the most characteristic woods and of greater aesthetic value make our product more differentiating.

we promote our ecological character by obtaining certificates that guarantee our effort. The objective is to preserve the present and the future. Efficient energy management, rational use of water and the minimization of emissions are some of our objectives. For this reason we have recently been granted to our product CERAMICTiles

Laying Solution

The material should be carefully checked before fixing, especially tonality, caliber and choice. Claims cannot be accepted once the material is installed. The company declines all responsibility for laying without joints; minimum joint laying has a gap of 2 mm.
