KEY FEATURES OF OUR STEP RISERS

Durable Construction:

Crafted from high-quality ceramic, porcelain, and natural stone, our step risers are built to last, withstanding heavy foot traffic while maintaining their beauty over time.

Slip-Resistant Surface:

Designed with anti-slip surfaces for enhanced safety, these risers are ideal for both indoor and outdoor use, reducing the risk of accidents in wet or busy areas.

Water-Resistant:

Designed with non-porous surfaces, our step risers resist water absorption, ensuring durability and easy upkeep in moisture-prone areas like patios and bathrooms.

Easy Installation:

Precisely cut for a seamless fit, these risers simplify the installation process, saving time for both professionals and DIY enthusiasts.

UV and Weather Resistance:

UV- and weather-resistant, our risers are ideal for outdoor use, as they resist fading and damage from harsh elements.

Eco-Friendly Materials:

Made using sustainable practices, our step risers support green building while delivering high performance and style.

IMPACT
READY

AVAILABLE SIZES

Landing Area Tiles: 600x1200mm

For landing areas, our 600x1200mm tiles offer a wider surface, providing both durability and a refined appearance. Perfect for transitions between floors, these tiles ensure a seamless continuation of design throughout your staircases and landing spaces.

Steps: 300x1200mm

Designed with anti-slip surfaces for enhanced safety, these risers are ideal for both indoor and outdoor use, reducing the risk of accidents in wet or busy areas.

Risers: 200x1200mm

The 200x1200mm riser tiles are crafted to match the steps, adding a cohesive look to your staircase design. These tiles elevate the vertical space between each step, bringing a clean and modern aesthetic to any staircase.
